SERVICES: Track & Trace

Ensure fast, global compliance with harmonized serialization systems that reduce risks, streamline audits, and support long-term success while being more cost-effective.

Reduce risk & be audit-ready, minus the headaches.

Serialization/traceability regulations are now a global reality. Whether you're navigating DSCSA in the U.S., EU FMD, or others, we'll handle the heavy lifting.

- New Product Launch
- Daily Management
- Managed Services
- Strategic Planning
- Implementation
- Serialized Operations Support
- Regulations

Why Partner With Us?

- ✓ **Pharma-Focused:** Trusted by top pharma, CDMOs, and virtual biotechs
- ✓ **Cost-Effective Expertise:** Subject matter expertise based on 15+ years
- ✓ **Serialization Leaders:** Ready-to-deploy Track & Trace and managed services.
- ✓ **Global Reach:** Deep experience across the U.S., EMEA & APAC
- ✓ **Fast, Scalable Delivery:** Proven frameworks accelerate readiness

Deep & Demonstrated Expertise In:

**Pharma
Manufacturers**

CDMOs

**Wholesalers/
Distributors**

**Pharmacies/
Dispensers**

supplychainwizard.com

Supply Chain Wizard has perfected its serialization onboarding process, offering guaranteed response within 24 hours and consistent client success.

BENEFITS

Internal

Cost & Resource Efficiency

High fixed staffing and training costs; fluctuating workload

Regulatory Compliance & Risk

Keeping up with evolving global regulations can be a challenge

Specialized Expertise

Multiple departments need to align to make serialization work efficiently

Partner & System Management

Onboarding CMOs/3PLs is slow; vendor and partner alignment can take a lot of time

Strategic Focus & Scalability

Manual processes often cause firefighting situations

Managed Services

Scalable, cost-effective model with shared expertise across clients

Continuous compliance monitoring + proactive implementation of regulation changes

Access to a deep bench of pharma serialization experts and certified PMs

SCW supports all serialization providers + turnkey tech support, health checks & dashboards

Frees up internal teams to focus on innovation, with flexible scale-up across markets

SERVICES: Digital Factory

Digital transformation is a multi-dimensional challenge. We make it practical, actionable, and sustainable.

Capture more value from your manufacturing, faster.

Manufacturers face growing pressure to improve performance, reduce waste, and accelerate transformation, all while ensuring quality and compliance.

We'll help you design, pilot, and scale digital factory SERVICES that drive measurable ROI in terms of productivity, time and cost savings, and increased profitability.

Why Partner With Us?

Examples of Results Achieved:

- ✓ **Visibility & Productivity:** Savings of \$120K/yr in 1 packaging line; +20% throughput increase
- ✓ **Paperless Quality:** ~\$400K/yr savings estimated due to paper logbook error reduction
- ✓ **Agile Planning:** ~10%+ throughput increase due to bottleneck reduction; planning from ~2-3 days to a few hours
- ✓ **Advanced Analytics:** Increased OEE by 20-70% across multi-dept / multi-site within 12 mo
- ✓ **Sustainable Factor:** Targeted net zero carbon footprint by 2050

Digital Factory Services:

Roadmap**

**Performance
Management**

**Advanced
Analytics**

**Quality &
Compliance**

SERVICES: Digital Supply Chain

Build a smarter, connected, future-ready supply chain, from optimizing commercial operations to transforming end-to-end visibility and planning.

Expedite decision-making with a data-driven supply chain.

Digital transformation isn't a buzzword. It's a business imperative. We combine deep supply chain expertise with cutting-edge digital capabilities to help companies design and execute a fit-for-purpose digital roadmap that drives performance and resilience.

Why Partner With Us?

- ✓ **Strategy & Roadmap Design:** Build a digital transformation plan aligned with your supply chain goals
- ✓ **System Integration & Vendor Selection:** Choose and connect the right IT platforms for execution
- ✓ **RPA & Automation:** Accelerate efficiency with UiPath-powered process automation
- ✓ **Planning, Forecasting & Launch Support:** Improve demand/supply planning and readiness for product launches
- ✓ **Compliance & Ongoing Support:** Ensure quality, reporting, and continuous process improvement

SERVICES: Process Excellence & RPA

Streamline your business processes, eliminate repetitive tasks through intelligent automation, and unlock measurable value across your operations.

Streamline Processes. Automate Tasks. Unlock Value.

By combining process excellence methodologies with cutting-edge robotic process automation (RPA), Supply Chain Wizard helps your teams work faster, smarter, and with greater accuracy, freeing up resources to focus on strategic growth.

Why Partner With Us?

- ✓ **Foster Employee Added Value:** RPA takes care of tedious tasks so employees can focus on value
- ✓ **Digital Transformation:** Leverages technology to carry out a faster digital transformation
- ✓ **Business Continuity:** Robots can work 24/7 and ensure business continuity
- ✓ **Cost Reduction:** Leads cost savings for repetitive and manual tasks
- ✓ **Eliminate Errors:** Robots work error-free and minimize the costs associated with rework tasks
